From the manufacturer

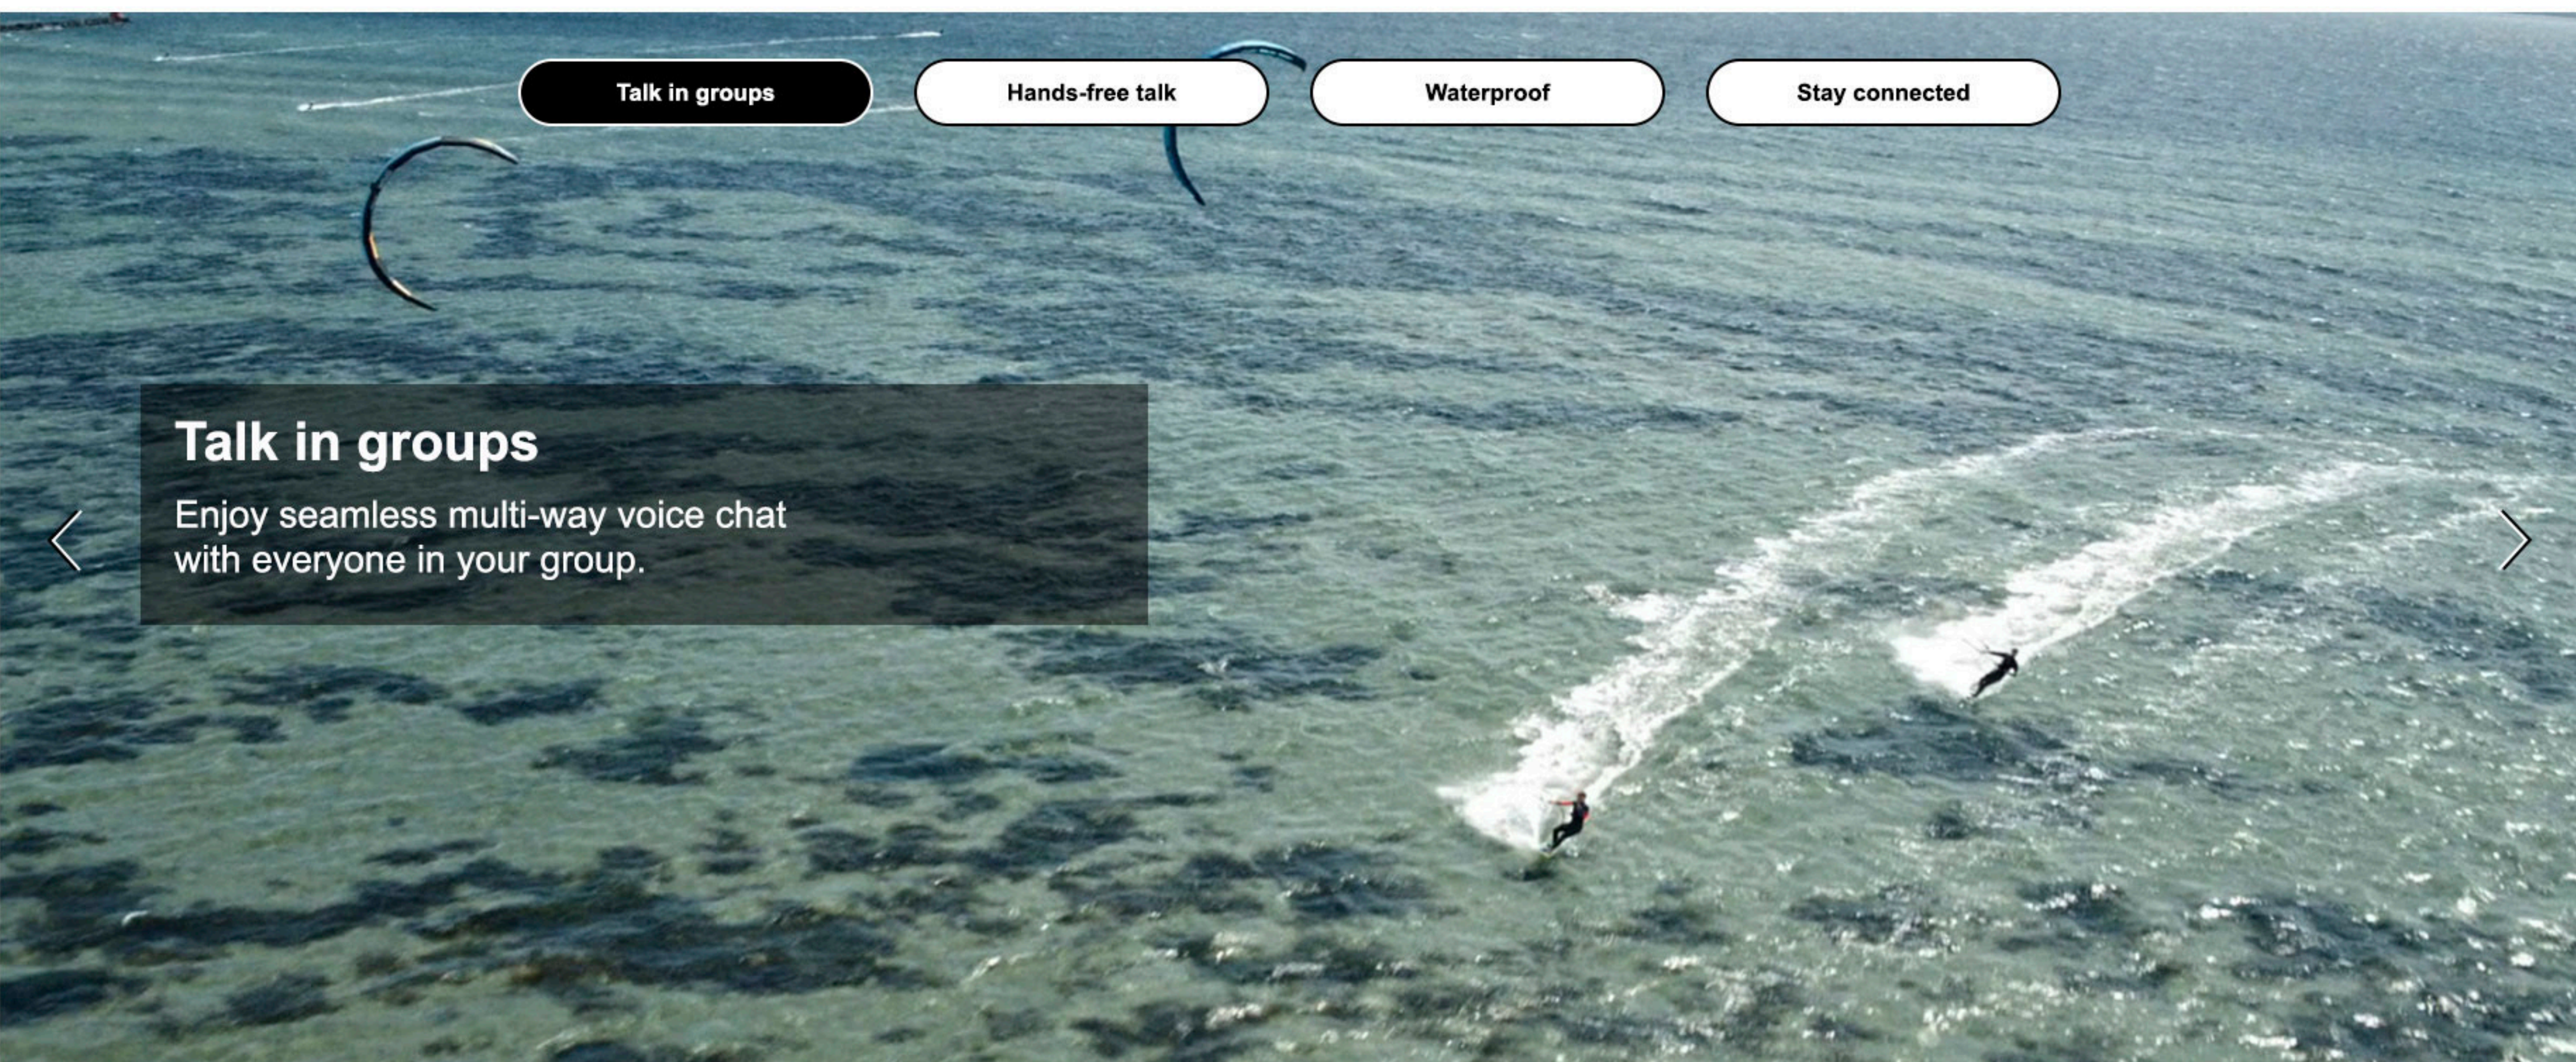

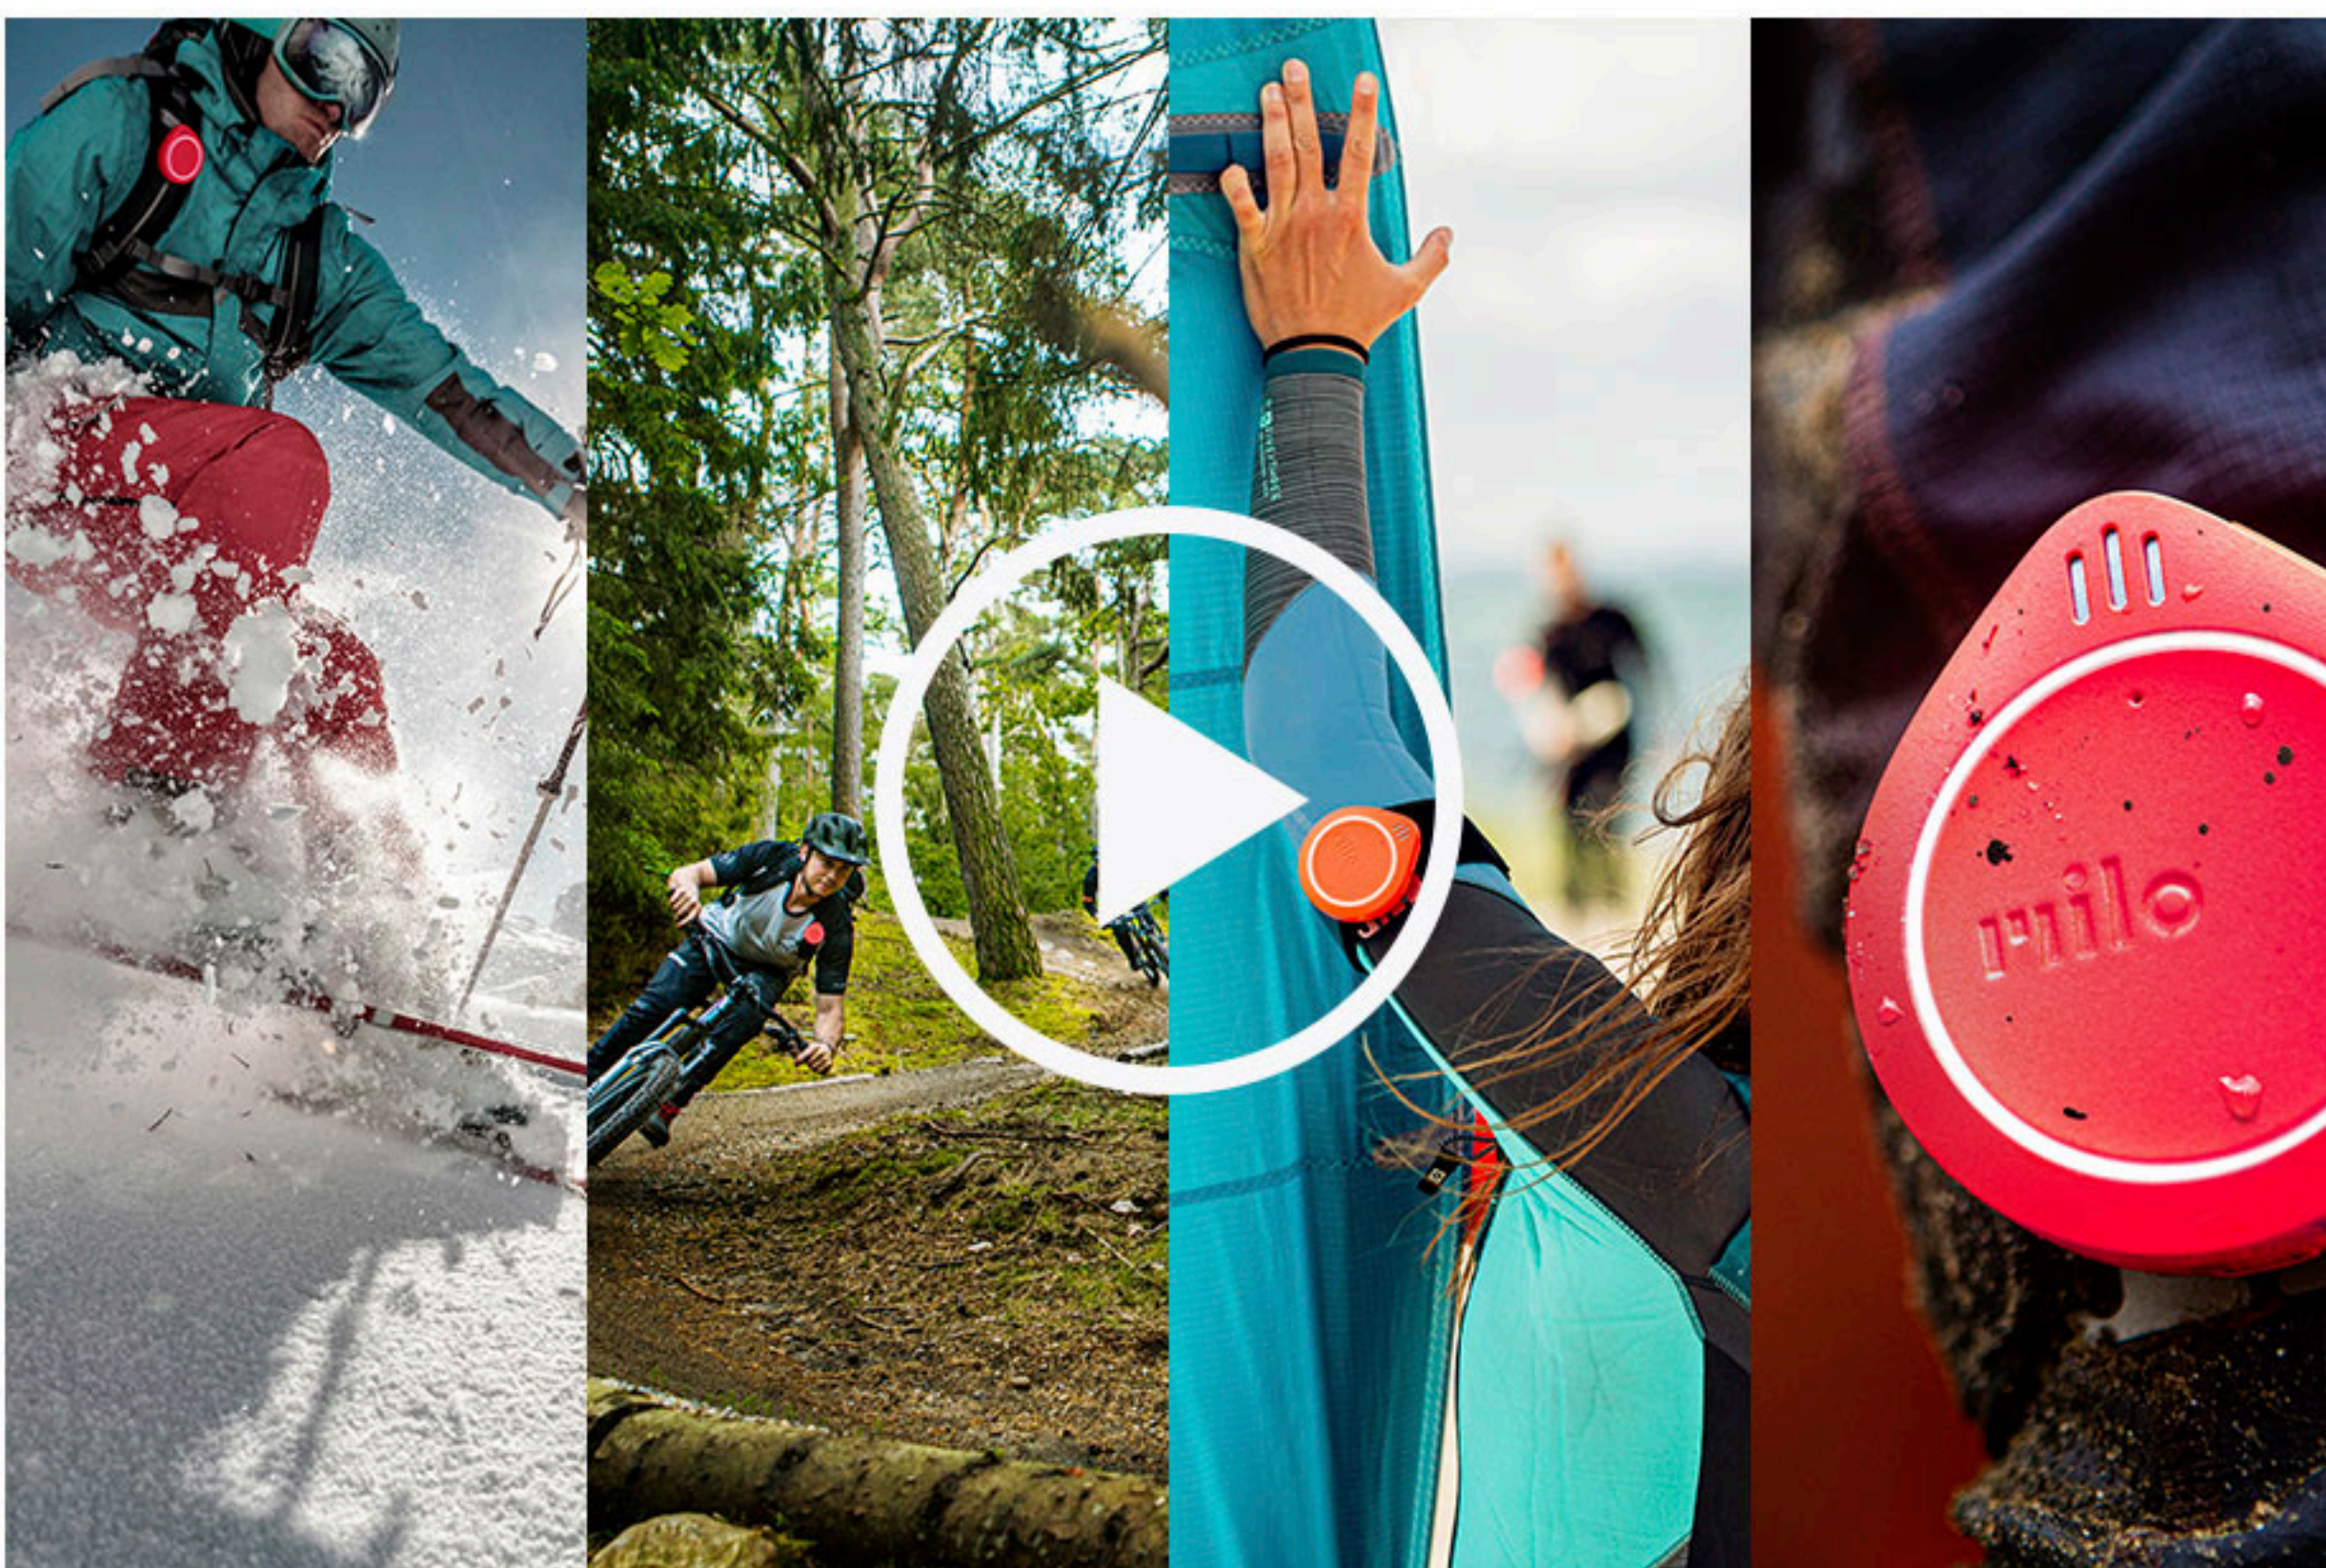

## Milo – The Action Communicator

Created to make shared adventures better. No buttons to push, hands-free, no Wi-Fi or cell signal needed. For adventures in the snow, on the water or the trail

## For all your adventures

Milo is here to revolutionize the way we communicate on our outdoor adventures. Forget about those traditional push-to-talk walkie talkies, that only allow one person to speak at the time. And break free from fumbling with your phone with cold or wet fingers. Milo lets you enjoy always open group voice chat with crystal clear sound quality wherever you are.
